Meeting with your advisee

Setting Expectations

- At the outset, make sure the party is aware of the limitations of your role.
- Advisors are not a confidential resource.
 - You are not under an obligation to keep what a party tells you confidential and, in some instances, may be required to report it.
- Advisors must be truthful.
 - If the matter ends up in a court of law and the advisor is requested to testify, they must do so and do so truthfully.

Pre-Hearing Preparation

Preparing for Cross

Review and evaluate the evidence

General Questioning Guidelines

GRAND RIVER SOLUTIONS

Format of Questioning

The Hearing Panel or the advisor will remain seated during questioning

Questions will be posed orally

Questions must be relevant

GRAND RIVERS SOLUTIONS

When Questioning....

Be efficient.

Explore areas where additional information or clarity is needed.

Listen to the answers.

Be prepared to go down a road that you hadn't considered or anticipated exploring.

Take your time. Be thoughtful. Take breaks if you need it.

GRAND RIVER SOLUTIONS

Foundational Questions to Always Consider Asking

Were you interviewed?

Did you see the interview notes?

Did the notes reflect your recollection at the time?

As you sit here today, has anything changed?

Did you review your notes before coming to this hearing?

Did you speak with any one about your testimony today prior to this hearing?

Common Areas of Where Clarity or Additional Information is Needed

Details about the alleged misconduct

Facts related to the elements of the alleged policy violation

Relevancy of Certain Items of Evidence

Factual Basis for Opinions

Credibility

Reliability

Timelines

Inconsistencies

What constitutes a relevant question?

The Department declines to define “relevant”, indicating that term “should be interpreted using [its] plain and ordinary meaning.”

See, e.g., Federal Rule of Evidence 401 Test for Relevant Evidence:

“Evidence is relevant if:

- (a) it has any tendency to make a fact more or less probable than it would be without the evidence; and
- (b) the fact is of consequence in determining the action.”

When is evidence relevant?

Logical connection between the evidence and facts at issue

Assists in coming to the conclusion – it is “of consequence”

Tends to make a fact more or less probable than it would be without that evidence

Information protected by an un-waived legal privilege

Medical treatment and care

Unduly repetitious or duplicative questions

Information that otherwise irrelevant

Complainant's prior sexual history, with limited exceptions.

Irrelevant and Impermissible Questions

When Assessing Relevance, the Decision Maker Can:

Ask the Advisor why their question is relevant

Take a break

Ask their own questions of the party/witness

Review the hearing record

Determining Credibility and Reliability

Remember: There is No Formula!

GRAND RIVER SOLUTIONS

Questioning to Assess Reliability

Inherent plausibility

Logic

Corroboration

Other indicia of reliability

Questioning to Assess Credibility

No formula exists, but consider asking questions about the following:

opportunity to view

ability to recall

motive to fabricate

plausibility

consistency

character, background, experience, and training

coaching

Opinion Evidence

When might it be relevant?

How do you establish a foundation for opinion evidence so that the reliability of the opinion can be assessed?

Asking Questions to Assess Authenticity

Investigating the Products of the Investigation

Never assume that an item of evidence is authentic.

Ask questions, request proof.

Request further investigation of the authenticity if necessary.

GRAND RIVER SOLUTIONS

What are the “Hard” Questions

Details about the sexual contact

Seemingly inconsistent behaviors

Inconsistent evidence/information

What they were wearing

Alcohol or drug consumption

Probing into reports of lack of memory

How to Ask the Hard Questions

Lay a foundation for the questions

- Explain why you are asking it
- Share the evidence that you are asking about, or that you are seeking a response to

Be deliberate and mindful in your questions:

- Can you tell me what you were thinking when....
- Help me understand what you were feeling when...
- Are you able to tell me more about...

Special Considerations for Questioning the Investigator

- The Investigator's participation in the hearing is as a fact witness;
- Questions directed towards the Investigator shall be limited to facts collected by the Investigator pertinent to the Investigation;
- Neither the Advisors nor the Decision-maker(s) should ask the Investigator(s) their opinions on credibility, recommended findings, or determinations;
- The Investigators, Advisors, and parties will refrain from discussion of or questions about these assessments. If such information is introduced, the Chair will direct that it be disregarded.

Special Considerations for Questioning the Investigator

Ask questions about how they conducted their investigation

Explore the investigators decision making

Seek clarity about evidence collected

Where it came from
Authenticity of the evidence

Ask factual questions that will assist in evaluation of the evidence

If bias is not in issue at the hearing, the Chair should not permit irrelevant questions of the investigator that probe for bias.

GRAND RIVER SOLUTIONS

Special Considerations for Panels

If a panel, decide in advance who will take the lead on questioning

Go topic by topic

Ask other panelists if they have questions before moving on

Do not speak over each other

Pay attention to the questions of other panelists

Ok to take breaks to consult with each other, to reflect, to consult with the TIXC or counsel

The Advisor's Role in Questioning

04(b)

GRAND RIVER SOLUTIONS

Cross Examination

Common Approaches

1. Highlight the evidence that supports your advisee's narrative/version of events and the findings of fact that you want the decision maker to make.
2. Obtain/Highlight helpful information.
3. If a witness does not have information that is helpful, ask questions that illustrate that the witness's testimony is unimportant.
4. Highlight bias/lack of bias.
5. Highlight credibility and reliability/lack of credibility or reliability.
6. Address any inconsistencies of the party or witness.

Questioning

Addressing Inconsistent Statements

Example

Statement A:

During her interview with the investigator, Witness Y stated that she overheard Respondent and Complainant fighting inside of Complainant's bedroom. She stated that Complainant came out of the room crying and that their face was red and swollen. She stated that Respondent followed Complainant out of the room "looking angry" and grabbed Complainant by the arm "aggressively" and pulled them back into the room. The fighting then continued.

Statement B:

At the hearing, Witness Y tells the decision maker that while she heard loud voices, it might not have been fighting. She also stated that the parties came out of the room together, that Complainant looked upset, that Respondent looked concerned, and that they "calmly" went back in the room together.

Confirm

- Witness Y, earlier today you were asked about what you heard and saw on the night in question...
- And you indicated that you heard loud voices, but that you are not sure if it was fighting, is that correct?
- You also said that the parties came out together and then went back into the room, is that what you saw?
- And you are sure of this?

Compare

- Witness Y, this isn't the first time you shared your observations of Complainant and Respondent that night, is it?
- Did you talk to the investigator about this?
- And that statement was provided just two days after the incident, correct?
- Do you recall what you said to the investigator?
- Did you tell the investigator the truth when you were interviewed?

Conclude

- Witness Y, when you spoke to the investigator, you indicated that you heard fighting, correct?
- And that Complainant came out of the room crying, isn't that right?
- And that Respondent came out looking angry, correct?
- You also stated that you saw Respondent grab Complainant and drag them back into the room, isn't that true?
- Since speaking with the investigator, you and Complainant have had a falling out, haven't you?

The Do's of Conducting Cross

Be efficient

Highlight the portions of their testimony that support your advisee's narrative.

Listen.

Do make your points through pointed and calm questioning

Be prepared to go down a road that you hadn't considered or anticipated exploring.

Do raise concerns about credibility and reliability

Take your time. Be thoughtful. Ask for breaks if you need it.

The Do Nots of Cross Examination:

Don't rehash everything a witness has said.

Don't call folks liars or attack them.

Don't rant, rave, lose your temper.

GRAND RIVER SOLUTIONS

Observe and Listen

Be open to adjusting plans or strategy based on information presented at the hearing.

Make note of any issues that you think may be appropriate for appeal.

The Decision Maker's Role in Advisor Questioning

04(c)

GRAND RIVER SOLUTIONS

Cross Examination

Who does it?

Must be conducted
by the advisor

If party does not
appear or does not
participate, advisor
can appear and cross

If party does not
have an advisor,
institution must
provide one

The Role of the Decision Maker During Questioning by the Advisors

After the Advisor poses a question, the proceeding will pause to allow the Chair to consider it.

Chair will determine whether the question will be permitted, disallowed, or rephrased. The Chair may explore arguments regarding relevance with the Advisors.

The Chair will limit or disallow questions on the basis that they are irrelevant, unduly repetitious (and thus irrelevant), or abusive.

The Chair will state their decision on the question for the record and advise the Party/Witness to whom the question was directed, accordingly. The Chair will explain any decision to exclude a question as not relevant, or to reframe it for relevance.

The Chair has final say on all questions and determinations of relevance. The parties and their advisors are not permitted to make objections during the hearing. If they feel that ruling is incorrect, the proper forum to raise that objection is on appeal.

After the Hearing

Deliberations

GRAND RIVER SOLUTIONS

Evaluating the Evidence

Is it relevant?

Evidence is relevant if it has a tendency to make a material fact more or less likely to be true.

Is it authentic?

Is the item what it purports to be?

Is it credible?

Is it convincing?

Is it reliable?

Can you trust it or rely on it?

What weight, if any, should it be given?

Weight is determined by the finder of fact!

Weighing the Evidence & Making a Determination

1. Evaluate the relevant evidence collected to determine what weight, if any, you will afford that item of evidence in your final determination;
2. Apply the standard of proof and the evidence to each element of the alleged policy violation;
3. Make a determination as to whether or not there has been a policy violation.

Preponderance of the Evidence

More likely than not

Does not mean 100% true or accurate

A finding of responsibility = There was sufficient reliable, credible evidence to support a finding, by a preponderance of the evidence, that the policy was violated

A finding of not responsible = There was not sufficient reliable, credible evidence to support a finding, by a preponderance of the evidence, that the policy was violated

Clear and Convincing Evidence

Substantially more likely to be true than untrue

Does not mean 100% true: Greater than preponderance, but less than beyond a reasonable doubt

DBU: "The measure or degree of proof that will produce in the mind of the trier of fact a firm belief or conviction as to the truth of the allegations sought to be established"

Findings: There was/ was not sufficient reliable, credible evidence to support a finding, by a clear and convincing evidence standard, that the policy was violated

Findings of Fact

- **A "finding of fact"**
 - The decision whether events, actions, or conduct occurred, **or** a piece of evidence is what it purports to be
 - Based on available evidence and information
 - Determined by the fact finder(s)
- **For example...**
 - Complainant reports that they and Respondent ate ice cream prior to the incident
 - Respondent says that they did not eat ice cream
 - Witness 1 produces a timestamped photo of Respondent eating ice cream
- **Next steps?**

Policy Analysis

- Break down the policy into elements
- Organize the facts by the element to which they relate

GRAND RIVER SOLUTIONS

Allegation: Fondling

Fondling is the:

- ❑ touching of the private body parts of another person
- ❑ for the purpose of sexual gratification,
- ❑ Forcibly and/or without the consent of the Complainant,
 - ❑ including instances where the Complainant is incapable of giving consent because of their age or **because of their temporary or permanent mental or physical incapacity.**

Analysis Grid

Touching of the private body parts of another person	For the purpose of sexual gratification	Without consent due to lack of capacity
<p>Undisputed: Complainant and Respondent agree that there was contact between Respondent's hand and Complainant's vagina.</p>	<p>Respondent acknowledges and admits this element in their statement with investigators.</p> <p>"We were hooking up. Complainant started kissing me and was really into it. It went from there. Complainant guided my hand down her pants..."</p>	<p>Complainant: drank more than 12 drinks, vomited, no recall Respondent: C was aware and participating Witness 1: observed C vomit Witness 2: C was playing beer pong and could barely stand Witness 3: C was drunk but seemed fine Witness 4: carried C to the basement couch and left her there to sleep it off.</p>

Apply Standard to Each Element

Touching of the private body parts of another person	For the purpose of sexual gratification	Without consent due to lack of capacity
<p>Undisputed: Complainant and Respondent agree that there was contact between Respondent's hand and Complainant's vagina.</p> 	<p>Respondent acknowledges and admits this element in their statement with investigators.</p> <p>"We were hooking up. Did You Also Analyze...?

- On campus?
- Program or Activity?
- In a building owned/controlled by a recognized student organization?
- Substantial control over respondent and context?
- Complainant was attempting to access program/activity?

Final Report

- The allegations
- Description of all procedural steps
- Findings of fact
- Conclusion of application of facts to the policy
- Rationale for each allegation
- Sanctions and remedies
- Procedure for appeal

The Final Determination Should **STAND** On Its Own

- S** Simple and Easy to Comprehend
- T** Transparent/Clear
- A** Accurate
- N** Neutral/Unbiased
- D** Draw Attention to Significant Evidence and Issues

Practical Application

06

GRAND RIVER SOLUTIONS

Scenario 1

Respondent provides a polygraph report to investigators wherein it is concluded that Respondent is not being deceptive when denying the allegations.

- **The Investigator determines the report is irrelevant. Must the Investigator share the report with the decision maker?**

Scenario 2

Respondent provides a polygraph report to Investigators wherein it is concluded that Respondent is not being deceptive when denying the allegations. The polygrapher appears and answers all relevant questions on cross.

- **Must the Hearing Panel find Respondent not responsible because of the findings in the report?**

Case Study

“

The Formal Complaint charges Respondent with sexual assault for engaging in sexual contact with Complainant when they were incapacitated by alcohol. Specifically, Complainant alleges that they were at a party with friends when they met Respondent. Complainant reported that prior to the party they pre-gamed with Witness 1 and they split a bottle of prosecco. Complainant stated that while at the party, Respondent and Witness 2 approached them and their friend, Witness 3, and asked if they would be their partners in a round of beer pong. Complainant reported that they paired up with Respondent and they played several rounds. They further allege that Respondent was the one who filled their cups. Complainant stated that they "got drunk fast" and their last memory was of Respondent handing them a celebratory shot because they had won the tournament. Their next memory was waking up on a couch in a bedroom that was unfamiliar to them, naked from the waist down. Respondent was on the floor next to them, asleep. Respondent was under a blanket but was also naked.

”

Witness 1

Witness 1 was interviewed by the investigator and reported that she and Complainant are roommates, but they are not close. Witness 1 is an athlete and tends to hang out with her teammates. She stated that for this reason, they rarely hang-out, but that the night of the alleged incident they did because they were planning on going to the same party. Witness 1 stated that they split a bottle of prosecco, but that Complainant drank most of it because Witness 1 had an early practice the next morning and didn't want to get "too messed up." Witness 1 said that they went to the party together, but then went their separate ways. Witness 1 stated that towards the end of the night, she saw Complainant and described them as "a disaster." She also reported that Respondent was "practically carrying [Complainant]" and she approached them and offered to take Complainant home. According to Witness 1, Complainant said they were fine, but their words were slurred, and Complainant could barely stand. Witness 1 told Respondent to take care of Complainant and Respondent said, "I'm just going to put [Complainant] to bed." She didn't see either of them at the party again that night.

At the hearing, Witness 1 gave testimony that was substantially the same as what she told the investigator.

Witness 2

Witness 2 told the investigators that he is Respondent's best friend and teammate. Witness 2 stated that when looking for partners for the beer pong tournament, Respondent saw Complainant and Witness 3 and suggested that they approach them because Complainant "was hot" and Witness 3 "looked drunk enough to be a good time." Witness 2 said that Complainant was fine and didn't appear to be that drunk. He also stated that Complainant made most of the winning shots after several rounds of the game so they couldn't have been too messed up. When asked who was filling the cups, he said that he wasn't sure who did it each round, but he definitely saw Complainant fill them on two occasions. After the tournament was over, he helped Witness 3 get home and so didn't see Complainant and Respondent again that night. He also mentioned that he and Witness 3 are now dating.

At the hearing, Witness 2 testified that Complainant was fine. He also stated that Respondent never filled Complainant's cup and that Complainant was all over Respondent the entire night.

Witness 3

Witness 3 was Complainant's best friend at the time of the incident. They are no longer close, and Witness 3 is now dating Witness 2.

Immediately following the alleged incident, Witness 3 told the investigators that Complainant was already drunk when they got to the party. She stated that Respondent and Witness 2 asked them to play beer pong and they agreed. She stated that the parties seemed to hit it off immediately. She stated that they won the tournament and so played at least five rounds and that by the end of the game Complainant was the "drunkest she had ever seen them." Witness 3 stated that Complainant was slurring their words, couldn't stand on their own, and was really loud, which is not like them. Witness 3 stated that that she was pretty drunk too, but not as bad as Complainant. Witness 3 stated that she left the party with Witness 2.

At the hearing, Witness 3 stated that she may have exaggerated her description of Complainant when she spoke to the investigators. She told the decision makers that although Complainant drank a lot, Complainant wasn't that out of it, because they had a high tolerance and drank a lot all the time.
